

Hello All

We are proud to announce the formation of the first ever **youth turf league** in the country. Our official name will be **Washington Cricket Center Youth Turf League (WCCYTL)**.

We are also happy to announce that **Mr. Sunny Sohal**, a current USA national player and a distinguished Coach has agreed to be our League Administrative Officer. Coach Sohal will run the day-to-day administrative affairs of this new league (as well as all other leagues that we intend to form in the near future).

Before we go any further let me outline our vision and the approach for the future of youth cricket in the USA.

We firmly believe that cricket in the USA is capable of producing elite home-grown cricketers if we follow two developmental approaches. The first is to believe in our own youth and give them the best training we can. The second is to provide the best sports infrastructure such as turf pitches, well-groomed fields, training facilities, and a competitive structure similar to the ones being used at the highest levels of cricket in other countries so our players can get accustomed to competitive environments from a very young age. The logical end product of these approaches, we hope, would be a stream of young players who would be capable of elevating USA cricket to the highest levels.

We are sending you this communication because we believe that you share in our vision for youth cricket in the USA. Therefore, we warmly invite you and your organization to come aboard and be a part of this new league.

A number of organizations have already expressed their willingness to join our league. If you are interested in joining us please call Mr. Sridhar Banala @ 443-829-8905 or [Banalas@yahoo.com](mailto:Banalas@yahoo.com), At this point we know that you may have a lot of questions regarding this initiative. Mr. Banala will be happy to answer your questions.

Hoping to hear from you soon.

**Sunny Sohal**  
**League Administrative Officer**
